STOCKS INFLUENCED

By Rumors as to the Fate of the Seigniorage Bill.

Cleveland Gives Wall Street a Hint to Keep Its Oar Out-Indianapolis Grain Dull and Lower.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 31/265 per cent. Sterling exchange was dull, with actual business in bankers' bills at \$4.88%@4.89 for demand and at \$4.87% @4.87% for sixty days; posted rates, \$4.88@4.891/2; commercial bills,

Silver certificates, 58%@59%c. Bar silver closed at 59%c per ounce; at London, 27%d. Total sales of stocks reached 171,000 shares. Although not altogether a controlling influence of the speculation on the Stock Exchange, the fate of the seigniorage bill is full of interest to the street, and operators for both long and short accounts trade on their respective theories as to the probable action of the President. The dispatch received from the executive chamber Tuesday evening by the Chamber of Commerce committee appointed to present the memorial adopted against the signing of the measure, advising that they should not go to Washington, was taken by one section of the operators to mean that inasmuch as the reason had been reached to veto the measure it was unnecessary for the committee to make the journey. On the other hand, it was suggested that the President, having decided to sign the bill, desired not to speak to the committee. Both sides agreed that Mr. Cleveland had either made up his mind to the course to pursue, or wished to arrive at a conclusion without the assistance of the New York financiers. A belief in a veto caused a buying movement during the morning, while in the afternoon the early purchasers became sellers. There were other factors besides the seigniorage bill which affected special stocks and sympathetically the entire market. The Sugar people profess to regard the sugar schedule of the Senate tariff bill with only little less favor than they accepted the House bill, and assert that it does not give any material protection to refiners. As a consequence, the bears in the Sugar company's shares are assisted by this this argument in hammering down prices. Reports were circulated to the effect that certain prominent Senators have stated that the tariff bill, as it shall pass, is certain to make sugar free, but the common stock, after an early break, recovered all but a fraction of the loss, while the preferred made a slight gain. Pending the conclusion

meeting of shareholders in Boston. Mc-Leod and his friends dropped out of the management of the company without a ripple of excitement among the shareholders. The volume of business was lighter than for some time, even Sugar failing activity. A firm opening was followed by an early advance, except for Sugar, which, after an advance of %, broke 21%, subsequently recovering 24, but again reacting 2, rallying 1%, receding 1%, and closing at a recovery of % per cent., the loss on the day being The general market was strong during the afternoon until about 2 o'clock, when a reaction occurred, but in the final dealings the speculation became firm again and closed with prices in the main 447% per cent. higher than the final quotations of yesterday for the active list, and for 1 per cent. for Delaware. Lackawanna & Western; 11/8. Moble & Ohio; 1/4. Pullman; 2. St. Paul & Duluth; 21/2. Pittsburg & Western preferred; 27/8. Consolidated Gas, and 3. Evansville & Terre Haute.

of negotiations in progress between repre-

sentatives of the distilling and distributing

companies, the speculations in Distilling are

contracted. The uncertainty which prevails

as to the outcome of the conference naturally

restricts the buying and the bear traders

are not anxious to put out long lines of

stock lest they be swamped in a boom

manufactured out of a possible agreement

between the rival interests. A covering

movement in Burlington & Qunicy was

the moving power in the appreciation in

this stock, but despite early purchases of

St. Paul for the London account, the later

selling reduced the advance in the common

to 16, but the preferred made an advance

of 1 per cent. In Chicago Gas a truce

seemed to have been agreed on by the op-

posing factions, the fluctuations being with-

in % per cent, and the closing at Tuesday's

final sales. New England was not in the

least affected by the change in the com-

plexion of the directory at yesterday's

The bond market was firm in the early trading and strong during the afternoon, the principal changes being: Advances-Peoria & Eastern firsts, 314; Chesapeake & Ohio R. & A. division seconds, Peoria, Decatur & Evansville seconds, each 1 per cent.; Wabash debentures, Series B, sold at 25, against 21 on March 7. Government

bonds were firm. State bonds were in-The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations:

LOCAL GRAIN AND PRODUCE.

Continued Fine Weather Increases Trade with Prices Weak.

Present indications are that the trade of March on the wholesale streets will reach the volume of March, 1893. So springlike has the weather been that dry-goods houses and millinery establishments have done a good business. Millinery men say it was never better. Grocers are enjoying a brisk trade. Some staple articles are easier in tone. Canned goods and stocks of dried fruits are well reduced. Considerable is doing in the salt fish line. Leather dealers and hardware men say that business has improved the last few days. On Commission row merchants talk much more cheerfully, and the amount of goods they are shipping seems more like that of the better times of the past. In the gas belt region more goods are being bought. Poultry, eggs and butter are coming in large quantitles, with prices weak at quotations.
Oranges are in light supply and firmer.
Lemons are plenty and selling low for

The local grain market shows some activity; still, the attendance on 'Change is small and the bidding tame, with sales of little importance. Track bids yesterday ranged as follows: ranged as follows:
Wheat—No. 2 red, 53½c; No. 3 red, 49½c;
rejected, 40@50c; wagon wheat, 53c.
Corn—No. 1 white, 37½c; No. 2 white, 37½c;
No. 3 white, 37½c for one color, 37c for grade; No. 2 white mixed, 36c; No. 3 white mixed, 36c; No. 4 white mixed, 31c; No. 2 yellow, 36c; No. 3 yellow, 35½c; No. 4 yellow, 30½c; No. 2 mixed, 36c; No. 3 mixed, 34%c; No. 4 mixed, 31c; ear corn, 37½c. Oats-No. 2 white, 34c; No. 3 white, 33½c; No. 2 mixed, 321/2c; No. 3 mixed, 311/2c; re-Hay-Choice timothy, \$11.50; No. 1, \$11.23;

No. 2, \$9; No. 1 prairie, \$6.50; mixed, \$8; clover, \$7@7.50 per ton.
Rye-No. 2, 45c for car lots; 40c for wagon Bran, \$13.

Poultry and Other Produce. (Prices Paid by Shippers.) Poultry-Hens, 61/2c per lb; young chickens, 61/2c per lb; turkeys, old toms, 4c per Ib; hens, 61/2c per Ib; fancy fat young toms, turkeys, 4c; poor, 3@4c; ducks, 61/2c per lb; geese, \$4.20@4.80 per doz for choice.

Eggs-Shippers are paying 8c.

Nitrogen Catching Crops.

Philadelphia Record

Nitrogen is a very plentiful substance, composing about 80 per cent, of the atmosphere, but its tendency to break loose from its combinations and the difficulty of combining the free nitrogen of the atmosphere with any other substance renders it, so far as its availability to the farmer is concerned, a very costly fertilizer, its price being about 17 cents per pound. The farmer purchases it as an ingredient of ammonia, nitrate of soda, and in other forms, but he has it within his power to derive it from the atmosphere by growing those crops that have the smallest tendency to appropriate nitrogen through the agency of the roots and leaves. The leguminous plants—clover, beans, peas, vetches, sanfoin, etc.—are of the "nitrogen catchers," as is sometimes applied to them, clover being a general crop on all farms where improvement of the soil is desired. Clover is a biannual, and is seldom used for restoring fertility when the object is to do the work quickly, as peas and oats may be sown and turned under when nearly matured. The best plants for the purpose, however, is the cow pea, which very nearly approaches clover in composition, but grows quickly, the seed being sown or planted in May and the grop turned under in July or August, according to the rapidity of its growth. About six pecks of seed are used for an acre, if drilled in so as to admit of cultivation, but if the land is well prepared the seed may be broadcasted, more seed being used than for drilling. The cow pea (it is really. a bean) is stocky in growth, has an abundance of leaves and crowds the weeds out. It is usually plowed under just as the seedpods are beginning to form, at which stage of its growth it is also cut for hay by those who grow it for that purpose. If allowed to ripen seed it becomes hard and woody, though the seeds are valuable. Experiments show that as much as 150 pounds of nitrogen per acre may be added to the soil with a good crop of cow peas, equivalent to over \$25 worth of nitrogen, while the shading of the soil by the vines

increases the amount of humus and also lessens the number of weeds. If cut as a hay crop the leaves are liable to drop off when dry, but cattle and sheep are very partial to every portion of the plant. The cow pea is not well known north of Balti-

A FROST SCARE

Wheat Influenced by a Predicted Drop in the Mercury.

Small Advances in Grain, However, Were Not Well Maintained-Provisions Up.

CHICAGO, March 21 .- A frost scare was the Alpha and Omega of the day's influence in the wheat pit. It advanced the price of wheat 1/2c per bushel for a time, but there was a bare 1/8c gain at the close. Corn made a 1/4c advance and lost it again. Provisions were firm, and secured larger portion of the day's advance.

Wheat opened with a good general demand for May a shade higher than it closed yesterday. The weather for the season of the year was extremely cold in some sections. The fear of perhaps 15 or 20 degrees of frost spreading down into the winter wheat belt caused some covering of short wheat and advanced May in about twenty minutes from 58c, at which it opened, to 581/2058%c. New York sent a good many orders to buy in short wheat. H. V. Lester led in the buying at the opening, and took perhaps 1,000,000 bushels in the first fifteen minutes of the session. Other commission houses were also fairly well supplied with similar orders, but the first batch having been executed, the market settled down Into quietude at around 58%@58%c. When the weather-service prediction of a cold wave for the greater part of the winter wheat region to-morrow changed the character once more of the chorus in the pit, the voices of the bulls again began to predominate. The price began to rise, and 581/20 was registered for May on this second bulge. Then the local crowd having loaded up early in the day, seeing no frost on the windows of the trading hall and hearing of no fresh cash business, commenced to unload, and the price got back again to 58c for a moment, and closed with sellers at The corn market at the opening was

about steady at the same price it closed on the preceding afternoon. The strength in wheat helped it some after that, and then came estimates for another day's small receipts and a demand in the sample market was the cash offerings in excess of the supply. T. M. Baxter, Schwartz-Dupee and Ramsey-Lightner were among the more noticeable buyers, and Bartlett-Frazier the chief sellers. The market eased off with wheat toward the close. Oats opened a shade easier, but shortly afterwards when signs of strength became noticeable in corn the market rallied and was slightly firmer during the greater part of the rest of the session, but closed at last night's figures. The provision market was strong at higher prices. The quantity absorbed by yesterday's purchases left the market quite bare. The demand continuing, and the offerings being light, the advance, under the circumstances, was held, as a matter of course. Baldwin about the middle of the session began to buy ribs, and took about 1,000,000 pounds, and Beasley took about 250,000 pounds. Compared with last night. May pork is 10c higher, May lard .071/2c higher and May ribs .071/2c higher. Estimated receipts for to-morrow are: Wheat, 37 cars; corn, 165 cars; oats, 140 cars; hogs, 26,000. Leading futures ranged

Always use cotton holders for frons. Woolen ones are hot to the hand, and if scorched, as they often are, the smell is disagreeable. In ironing a shirt or a dress turn the sleeves on the wrong side and leave them until the rest is done, and then turn and iron them.

OF TRAVEL

EVERY LETTER.

_ FOR __

MR. FRANK G. CARPENTER. one of the most widely and favorably known of newspaper writers, is now on his way to the Far East. He will visit Japan, Korea and China, and the results of his observations will be embodied in a series of letters which will be printed in the

SUNDAY JOURNAL

Mr. Carpenter carries letters from the most prominent men in the United States to American diplomats and consuls, and all that these officials can do to advance his purposes will be done. He also has official letters to the leading officials and cabinet ministers of the countries he will visit, and everything will be thrown open to him. These letters will not be of the guide-book variety. Mr. Carpenter will pay little attention to the seaports at which he may stop; these have all been written of before. He will push on to the interior, and tell of the government, customs and daily life of people of whose peculiarities the Western world knows little. The publication of these letters will begin in a few weeks, and will continue through the summer and fall. They will appear EXCLU-

SUNDAY JOURNAL

and WILL NOT BE PRINTED in any
